Subject: Re: cmake error
Posted by Florian Uhlig on Fri, 16 Nov 2007 07:58:36 GMT

Hi Tobias

I tried to reproduce your problem, but i don't get your error.
I on't understand why the behavior changes if tou uncomment the
CHECK_GSI() macro, because the macro is executed much earlier.

Can you please check if all your cmake macros in the directory
cmake/modules are up-to-date.

In the moment i don't have any better idea.

Ciao

Florian
