Hi Tobias,

at /pandaroot/cbmg4/CbmRunConfiguration.cxx

i commented the line #include "TG4ModularPhysicsList.h"

But also Stephano told me, that cbmg4 is not used

any more, so we can comment the line

```
if(GEANT4_FOUND AND GEANT4VMC_FOUND AND CLHEP_FOUND)
  add_subdirectory (cbmg4)
endif(GEANT4_FOUND AND GEANT4VMC_FOUND AND CLHEP_FOUND)
```

in the Cmakelist.txt

in /pandaroot

so that is the situation.

best regards.

ALicia.
