Hi all,

I have a small bug report on the tpc code.

in pandaroot/tpc/tpcreco the PndTpcRiemannMCTask is missing (probably forgot to check in)
/pandaroot/tpc/spacecharge/CubSpline.cxx:59: This line shall be commented (as this code is "Work in progress")

That's it.

Kind regards and have a nice start into the week.
Ralf.
