Subject: Re: Problem with Geane (Error in "runRECO2.C") Posted by Aleksandra Biegun on Tue, 29 Jan 2008 17:48:49 GMT View Forum Message <> Reply to Message

Hi Pablo,

as Ralf noticed, maybe this expresion xc = xc - s; is not really important and gives an error, so I

commented 2 lines where xc = xc - s; was in the pandaroot/stt/PndSttHelixTrackFitter.cxx and the runRECO2.C macro finally works and finished succesfully .

Could you look at it if it is correct?

Thanks, Ola.

ps. now, time for next macros
