Hi Tobias and Sebastian these particles are ions
look at base/CbmParticle

`fpdg= 10000000+10000* z +10 * a;`

what i don't know is because, if they are produced why are not recognised by geant.

try with geant3, if it work
maybe these particles are not added for geant4 VMC.

It is strange because for me it works.Are you working with the development package(new Packages)

Maybe Mohammad can say something about it.

cheers ALicia.
