Dear colleagues,

I still need more input for the DPG group talk.

So far I have been promised/delivered plots from the people in this thread and in addition from the MVD group.

Here are further responsibilities:

Event generators: Stefano;

PID: Annalisa Cecchi, DRC, Johan (EMC)

RHO: Klaus Goetzen

Could you please just send me some plots that you think describe the status of your work?

Please note that I have to finish this talk by the end of next week!!! Since after that I will be traveling. Please give me the material as soon as possible! I can only plan the talk if I know what is available.

Best Regards, Sebastian.
