---

Hi all,

I have committed files for simulation and Hit production of Barrel Rpc\_Tof.  
I have used a simplified description of its geometry. It will be improved in the future in a correspondence with design studies.  
If other type of Tof will be choosed at PANDA meeting in March, I will re-design of my implementation.

However, I could not commit files "pandaroot/CmakeLists.txt"  
and "pandaroot/Dart.sh" with corresponding changes for Rpc\_Tof.

It is needed to add in the file "pandaroot/CmakeLists.txt"  
add\_subdirectory (rpc)  
and  
ln -s \$BUILDDIR/rpc/libRpc.so .  
in the file "pandaroot/Dart.sh".

Please, who has access for change of these files make the changes and commit them.

Aida
