Subject: Re: Program received signal SIGFPE, Arithmetic exception Posted by Anonymous Poster on Thu, 20 Mar 2008 09:49:19 GMT View Forum Message <> Reply to Message

Hi Arek,

I tried macro/run/run\_sim.C macro and it is working for me with the same pandaroot rev. 2351 version which you have tried. I think you should set the SIMPATH as: export SIMPATH=/misc/cbmsoft/Debian3.1/mar08/fairsoft/

then recompile and run.

Best regards, Dipak
