Dear Arek ,
have you tried to remove the optical physics option from gconfig/G4Config.C

you should have only "QGSP_BERT_EMV option

```
TG4RunConfiguration* runConfiguration  
= new TG4RunConfiguration("geomRoot", "QGSP_BERT_EMV");
```

instead of = new TG4RunConfiguration("geomRoot", "QGSP_BERT_EMV+optical");

let me know if it works.
cheers
ALicia.
