Hi here i posted

the Aida's email

so good luck

cheers
Alicia.

Hi all, hi Alicia,

I have calculated 1 million Events
of pbar-C12 interactions at 3 GeV/c momentum using Urqmd_SMM
generator.

The calculations are disposed at lxi00X.gsi.de cluster
in directory /d/panda02/urqmd_smm/pbarC_3GeV
in 10 files: pbarC_1.root, pbarC_2.root ... pbarC_10.root .
Each file contains 100000 Events of pbar-C Events.

Good luck,
Aida
