Subject: Re: Problems running Geant under Debian Etch Posted by Sebastian Neubert on Tue, 08 Apr 2008 08:07:48 GMT View Forum Message <> Reply to Message

Hi!

The problem here was, that /usr/lib was at the beginning of my LD\_LIBRARY\_PATH and under etch we have a libgeant321 there. So this Version of the library was taken which had been built without VMC.

Florian, could you arrange, that the /usr/lib entry is moved to the end of the list?

Cheers! Sebastian.
