Subject: Dashboard oflline

Posted by Ralf Kliemt on Wed, 16 Apr 2008 09:21:16 GMT

Hello everyone,

The Dashboard is off line since Monday. I just want to warn everyone that the Dart.sh script stays idle at the end when it wants to submit the logfiles. This causes for my case the cpu running at high occupancy until I kill it. You might experience the same, especially for the nightly builds.

Greetings, Ralf.
