Subject: Re: Dashboard oflline (since 14.Apr.2008) Posted by Florian Uhlig on Wed, 16 Apr 2008 10:13:35 GMT View Forum Message <> Reply to Message

Hi Ralf

The dashboard is running again. I don't know why it hangs again. What i wonder about is the comment that the script stays idle forever if it can't submit the results. On all machines i run the script it stops if it is impossible to submit the results.

If anybody else has the same problems as Ralf please let me know.

Ciao

Florian
