Hi all,

actually I liked it very much
(never miss an important message again ... a dream)

Christopher, if you like, you can create a poll
(if Sebastian and me are pro, and Tobias is contra, then this would be a democratic decision in favour, or?)

We will also vote on the next PandaRoot meeting, I think.
(for the people who didn't follow the discussion yet).

I also thought that we could solve Tobias "mailbox overflow during holiday" problem maybe by a [email from forum->SPAM folder] for the duration of the holiday.

P.S. if it stays switched OFF, do I have to buy the champagne anyway?

cheers, Soeren
