

Dear all,

there will be a PandaRoot EVO meeting

TUESDAY, May 6, 2008, 10:00-12:00

Audio testing from 09:30.

Preliminary Agenda:

- 1.) dE/dx in the tpc (Viola Michael, Sebastian)
- 2.) full sim and other news from rho (Klaus Goetzen, Dipak)
- 3.) run_reco.C
(this is not a deja vu, it will be on the agenda every time,
in order to discuss how we can add more detectors,
e.g. tof, rpc, drc, dch, muo etc. etc.)
- 4.) next stable version
 -> tags, svn copies, etc.
- 5.) planning for tutorial session in Krakow
- 6.) things we can we learn from ALICE
(-> a few words about the AliRoot/FairRoot workshop last week)

The agenda is evolving right now,
maybe more interesting issues are added.

Talk to you then.

Soeren (& Johan)
