Subject: Bug fixed in PndDpmDirect.cxx Posted by Aida Galoyan on Tue, 10 Jun 2008 14:23:02 GMT View Forum Message <> Reply to Message

Hi all,

I have found that a lot of problems was connected with

gSystem->Load("libPGen");

Page 1 of 1 ---- Generated from

and correspondingly with call of DPMGen. There was a lot of disccusions at the forum. The reason was in some mistakes/bugs in PndDpmDirect.cxx which was not created by me. Now I have fixed the bugs. Errors in libPGen have been erased, and DPMGen is working correctly.
