You mean this one?:

2 0xb4434a59 in PndDrc::ProcessHits (this=0x8567fc0, vol=0xbc45950)
at /home/ralfk/Pandaroot/pandaroot/drc/PndDrc.cxx:332

Looks like fMom could be really small when a particle is atually close to be stopped in the volume...
