Dear all "happy" PandaRoot activists who are not on vacation (anymore - or - yet),

there will be your favourite PandaRoot EVO meeting
this TUESDAY, Aug 5,
10:00-12:00 (audio testing from 09:30).

Tentative agenda:

- o forward tracking
(Ola will try to connect but it is not completely clear yet
if it will work out)

- o detector ID

- o license for _your_ code (for someone else who can read it on the grid): GPL? -> discussion

- o plot standard -> maybe a very nice idea, as PRL will never ever accept "gray root plots" -> proposal by Ralf

hope to talk to you all

Soeren (and Johan)
