Subject: Re: New external packages fairsoft_July08
Posted by Supriya Das on Thu, 14 Aug 2008 07:10:22 GMT

Hi Mohammad,

But just to remind, this problem appeared when I moved to "fairroot" and it was not there when I was working with the old external packages "cbmroot". This is why I thought that this might be an effect of the external packages and not of the MUCH codes.

Regards,
supriya
