In the EvtGen Makefiles there were thousand of lines due to all the local libraries of Johan.
In order to solve the bug I have removed them:

spataro 2008-08-27 11:07 #111 Solved bug of the Makefile

0 lines of code changed in:

pgenerators/EvtGen: Makefile (-958)
pgenerators/EvtGen/EvtGenBase: Makefile (-12655)
pgenerators/EvtGen/EvtGenModels: Makefile (-13770)

Only these lines are about 27000.
The lines were added on 14 August, and removed on 27 August. So in theory there should be
no difference in total.
