Very probably...

makedepend cannot find corresponding *.h file

Because gcc is not tuning.

I have written in config.mk follow string (path to *.h file):

```
EVTDEPINC=-I.  
-DEVSTANDALONE -I${CLHEP_BASE_DIR}/include -I${ROOTSYS}/include -I../  
-I/usr/lib64/gcc/x86_64-pc-linux-gnu/4.1.2/include/g++-v4  
-I/usr/lib64/gcc/x86_64-pc-linux-gnu/4.1.2/include/g++-v4/backward  
-I/usr/lib64/gcc/x86_64-pc-linux-gnu/4.1.2/include  
-I/usr/lib64/gcc/x86_64-pc-linux-gnu/4.1.2/include/g++-v4/x86_64-pc-linux-gnu -I/usr/include
```

Paths will be for you lib configuration.
