Very probably...

makedepend cannot find corresponding *.h file

Because gcc is not tuning.

I have written in config.mk follow string (path to *.h file):

EVTDEPINC=-I.

-DEVSTANDALONE -I\${CLHEP_BASE_DIR}/include -I\${ROOTSYS}/include -I../

-I/usr/lib64/gcc/x86_64-pc-linux-gnu/4.1.2/include/g++-v4

-I/usr/lib64/gcc/x86_64-pc-linux-gnu/4.1.2/include/g++-v4/backward

-I/usr/lib64/gcc/x86_64-pc-linux-gnu/4.1.2/include

-I/usr/lib64/gcc/x86_64-pc-linux-gnu/4.1.2/include/g++-v4/x86_64-pc-linux-gnu -I/usr/include

Paths will be for you lib configuration.
