Subject: Bug fix in geane
Posted by StefanoSpataro on Fri, 24 Oct 2008 07:44:53 GMT

Dear all,
several small bugs connected to geane propagation, field and charge, were fixed in lhetrack and tutorials/lhetrack directory (the distributions are a bit better, but there is still some sistematic shift in correlation residuals). If you want to use geane propagation or genfit, please update these directories.

Moreover, I have deleted the directory macro/lhetrack, I have decided to keep only one place for lhetrack macros (tutorials/lhetrack).
