Hi Dima,

could you please change the map version (MapperVersion:i 1)
in that file:

/macro/params/emc.par

from 1 to 2, since now the new version of the Forward End-Cap
is used, see: macro/emc/sim_emc.C

Emc->SetGeometryFileNameDouble("emc_module1245.dat","emc_module3new.root "); // if
you want to use new geometry for FwEndCap

There was version 2 some time ago, but now,
version 1 appeared back.

Thanks a lot!

Ola.
