Hi Dima,

could you please change the map version (MapperVersion:i 1)  
in that file:

/macro/params/emc.par

from 1 to 2, since now the new version of the Forward End-Cap  
is used, see: macro/emc/sim\_emc.C

Emc->SetGeometryFileNameDouble("emc\_module1245.dat","emc\_module3new.root "); // if  
you want to use new geometry for FwEndCap

There was version 2 some time ago, but now,  
version 1 appeared back.

Thanks a lot!

Ola.
