Subject: Re: problem when running statistics larger than 2 000 events Posted by StefanoSpataro on Tue, 16 Dec 2008 10:32:42 GMT View Forum Message <> Reply to Message

This is just for emc,

this means that you can run the normal macro even with large number of events, without the comment suggested before.

Nothing has changed for the digitization and for the db handling, there was just a sort of bug fix.
