Dear Johan,

I really enjoyed the different suggestions for the new PandaRoot logo. Some of them are really cute.

But there actually my problem starts. I think that none of these logos is appropriate as a logo for PandaRoot.

In my point of view the logo should fulfill the following points:

1. Related to the Panda-Experiment logo
2. Look professional
3. Look good in color and gray scale
4. Not to big
5. Some link to root would be nice (but is not necessary)

None of the logos matches all the points. (My apology to the designers)

So I would like to ask you to extend the poll list by a new point "none of the suggested logos" (or something like that).

Cheers,

Tobias
