Hi,

pndbase (libPndBase) is now renamed to pnddata (libPndData).

About AbsRecoHits I don't think it is a good idea to put it in a pndbase, first it is very detector specific and second this will make a PndBase library dependent on GenFit!

For me any general functionality concerning GenFit should be in GenFit itself, the reco hits can also stay in the detector directory but not in a base directory!

Mohammad
