Could you please try to add in your gconfig/basiclibs.C the following line at the end:

```
gSystem->Load("SIMPATH/transport/geant3/lib/libgeant321.so");
```

Maybe if you put the correct \$SIMPATH it will be better. I have the feeling this is a problem of gcc 4.3.2. Which gcc version do you have? (gcc -v).

Please tell me if this fix works or not.
