Stefano Spataro wrote on Thu, 16 April 2009 10:14Hi,
this is quite strange, considering that I have tested the stt reconstruction with more than 20k events with different momentum ranges.

Does the error appear at the first event, or after X events?

Which events are you running? The Box generator, or some EvtGen/DPM events?

My own generator for exclusive photon production is used.
