Hello Everybody,

I set up an EVO meeting next Wednesday, June 3rd, at 10 am.

Topics for the discussion follow the discussion from here.

I'll post some issues which need to be discussed/decided properly.

Functionality in data classes: Yes or No?
(Until now it was avoided, but the usability was pointed out.)
PndTrack: How do we proceed here? Copy from genfit/Track?
Track Propagation: What is still needed to be done?
Who? Well that is a particular question, are there volunteers?

I call especially for the people who have much experience with tracking, like the Pavia group, the Munich group, Bochum group and Gsi. I really want to have noone missing, because that will delay us even more.

Kind regards, Ralf.

PS: Please feel free to continue further on the forum discussion.
