Subject: Re: Pandaroot compilation error on Ubuntu9.04
Posted by Ralf Kliemt on Fri, 29 May 2009 12:39:10 GMT

Hello Dmitry,

Actually I encountered exactly that problem some weeks ago. Ubuntu comes with a compiler which has a problem with really long variable names. The point is that multiple maps and vectors expand at compiling time to long strings.

Have a look here .

Ciao, Ralf.
