Dear all,

The collaboration meeting is approaching! As usual, there will be a computing session on Monday afternoon from 14:00 on. Contributions are welcome! Just inform me, or send a message to the forum. Whatever you prefer. I will make an agenda for the computing session during the weekend, so please inform me asap!

Also note that on Thursday/Friday there will be tutorial sessions for starters and developers.

Kind wishes and hope to hear from you soon,

Johan.
