Dear Mohammad,

I will write you after last check of the new DPM.

Before this, the users can apply root-files generated  
by new DPM disposed at GSI Linux cluster in public directory:

/d/panda02/elastic

There are simulations of 100000 Events

of pbar-p elastic scatterings (hadron+interf.+Coulomb)

at beam momenta 1.5, 2.0, 6.2, 8.0, 10.1, 15.0, 16.0 GeV/c

at teta\_min=3 mrad.

Best regards,

Aida
