Hi Lia,

this is probably going wrong in trackrep/PndAdapters.* . Please see there which constructor call is make:

```
FairTrackParP first(firstState[3][0],firstState[4][0],firstState[1][0],first  
State[2][0],firstState[0][0],firstCova,firstPlane.getO(),firstPlane.getU (),first  
Plane.getV());
```

CU, Christian
