Dear all,

The preliminary agenda of the computing session on Monday the 7th of September is out and can be found on the indico system, namely

https://indico.gsi.de/conferenceDisplay.py?confld=665

I hope I didnt forget anyone. For the speakers, I would urge you could give me your talks in pdf format beforehand (not later than Sunday evening), so that I can upload them on the indico site.

Kind wishes and see you all in Juelich,

Johan.
