Hello Everybody,

Now it is possible to use Rho directly with the PID output. Here some things to keep in mind:

- You need to use a PID Task (e.g. Ideal MC info available at PndPidIdealAssociatorTask
- You need to load libRho, libAnalysisTools and libPid. Make sure to have them compiled.
- you need to use the PndEventReader on the File from the Pid task.

Feel free to have a look inside the example I attatched. (extract and run like ./go_tpc.sh 10)

Kind regards, Ralf.
