Hi Sebastian,

it seems that you forget to check in the "PndTpcRiemannHough" the cmake crashes with:

Quote:CMake Error in tpc/tpcreco/CMakeLists.txt:
Cannot find source file "PndTpcRiemannHough.cxx". Tried extensions .c .C
.c++ .cc .cpp .cxx .m .M .mm .h .hh .h++ .hm .hpp .hxx .in .txx
