Subject: Next PandaRoot EVO Meeting, Wednesday 11th of November, 10h
Posted by Bertram Kopf on Mon, 09 Nov 2009 15:28:33 GMT

Dear all,
as Johan already posted, the next PandaRoot EVO meeting will take place on next
Wednesday as usual at 10h.
Since it is uncertain whether Johan is able to attend this meeting, he ask me to chair it.
The meeting are mainly focused on two topics, the proxy dictionary and the activities of the
users (physics performance and/or detector studies). Therefore I would kindly like to ask the
users to prepare few slights for the meeting.

Topics:

o proxy dictionary (Bertram)

o activities of the users

o miscellaneous

Any other points to discuss?

Best regards,
Johan and Bertram.
