Subject: Re: libEmc.so: undefined symbol: \_ZNK17IfdDataProxyIFace9make\_vtabEv Posted by Elwin Dijck on Tue, 17 Nov 2009 14:16:16 GMT View Forum Message <> Reply to Message

Yes, I think you have load two additional libraries to solve this error (it was changed in gconfig/rootlogon.C). See the 3rd and 4th posts in this thread.

In the macro you use to load the PandaRoot libraries, PndBase and GlobalTasks have to be added:

... gSystem->Load("libBase") gSystem->Load("libPndBase") (<- here to add) gSystem->Load("libGlobalTasks") (<- here to add) gSystem->Load("libTrkBase")
