Dear all,

Upcoming Wednesday we will have our next PandaROOT EVO meeting. The main agenda point, as announced earlier, is about getting ready for the next user release!

1) General announcements

- upcoming CM, computing session & working groups
- data challenge
- ...

2) Next user release

- what to do with older releases?
- code freeze, what in, what out?
- running example and tutorial macros
- update Wiki documentation
- code stability?
- analysis tools...
- ...

3) A.O.B.

I would like to ask *all* the coordinators & developers to be present in this meeting, since we have to make some important decisions in order to proceed....

Kind wishes,

Johan.
