Hi all,

I got a small bug when running cmake & config.sh. There /etc/issue is read and compared to an earlier stage. However in one step quotation marks are dropped.

Quote:ralfk@leonardo:~/Panda/build> . config.sh

System during compilation: Welcome to openSUSE 11.2 Emerald - Kernel r ( l ).  
i686

System now : Welcome to openSUSE 11.2 "Emerald" - Kernel r ( l ).  
i686

You try to run the software on a different

...

I can fix that by hand easily in config.sh but it has to be done each time I called cmake.

Greetings from Bonn,  
Ralf.
