Subject: Error in <TStreamerInfo::BuildCheck> <TBufferFile::CheckByteCount> Posted by Dmitry Khaneft on Mon, 18 Jan 2010 15:08:22 GMT View Forum Message <> Reply to Message

Dear pandausers,

I got a strange error I never met before. When I run a digitization macro I have normal output and then problems with a

TStreamerInfo::BuildCheck and later on error related to TBufferFile::CheckByteCount. My only idea is the problem related to the different version of pandaroot I used when my data was produced.

Could someone comment what is wrong and how to fix it?

.....

-I- FairRunAna: Opening Input file: run0_mom0.25_phi45_theta155.root Warning in <TStreamerInfo::BuildCheck>:

The StreamerInfo of class PndMdt read from file

run0_mom0.25_phi45_theta155params.root

has the same version (=1) as the active class but a different checksum.

You should update the version to ClassDef(PndMdt,2).

Do not try to write objects with the current class definition,

the files will not be readable.

fRun->Init()

-I- FairRunAna::Init :

run0_mom0.25_phi45_theta155.root is connected with:

-I- Geometry was not found in the input file we will look in the friends if any!

initialisation for run id 1672183337

-I- PndMvdDetector: fListOfSensitives contains:

Disk-Sensor Barrel-Sensor PixelActive StripSensor SensorActiveArea StripActive PixelActive
