It looks like something happend with MDT but I have no idea how to fix it. I think I can re-simulate everything but it is crazy.

Quote:Warning in <TStreamerInfo::BuildCheck>:

The StreamerInfo of class PndMdt read from file
run0_mom0.25_phi45_theta155params.root has the same version (=1) as the active class but
a different checksum.

You should update the version to ClassDef(PndMdt,2).
