Subject: Momo Posted by adam on Thu, 26 Apr 2007 14:24:27 GMT View Forum Message <> Reply to Message

Hi everybody.

I have installed Momo but it does not work. I can create geometry, physics and materials but wehen i compile my project there is always an error. I don't know why . could you please help me?

thank you very much.

for more information: when i compile the following message appears:

>>> Error output, if any

make: Momomake.gmk: Aucun fichier ou répertoire de ce type

make:***pas de régle pour fabriquer la cible "Momomake.gmk". Arret.

>>>End of Error output

Hi Adam,

can you give some more detail of what you did ? Eventually you can also send me an e-mail. Are you using the GSI environment ?

Cheers,

Kilian
