Hi Andrea, Lia, Pablo...

Since you have worked on your Kalmanfilter for the STT, I would like to invite you to have a look to the genfit/Kalman. At the moment it has very basic functionality, e.g. the backpropagation is not implemented yet!

Please have a look at the algorithm and bring in your expertise!

Best Regards, Sebastian.

Hi Sebastian,
   yes, we have started already looking at this class!

Andrea
