Hi when i try to compile  
the code by using the external packages(/development)  
i get this error.

```
[ 99%] Building CXX object cbmg4/CMakeFiles/CbmG4.dir/CbmRunConfiguration.o
/d/panda02/asanchez/fairroot_new/pandaroot/cbm4/CbmRunConfiguration.cxx :21:35:
TG4ModularPhysicsList.h: No such file or directory
make[2]: *** [cbmg4/CMakeFiles/CbmG4.dir/CbmRunConfiguration.o] Error 1
make[1]: *** [cbmg4/CMakeFiles/CbmG4.dir/all] Error 2
```

any idea?

Hi Alicia,

I get the same error. Did you fix it?

Ciao,

Tobias

Hi Tobias,  
at /pandaroot/cbm4/CbmRunConfiguration.cxx  
i commented the line #include "TG4ModularPhysicsList.h"  
But also Stephano told me, that cbmg4 is not used  
any more, so we can comment the line

```
if(GEANT4_FOUND AND GEANT4VMC_FOUND AND CLHEP_FOUND)
  add_subdirectory (cbmg4)
endif(GEANT4_FOUND AND GEANT4VMC_FOUND AND CLHEP_FOUND)
```

in the Cmakelist.txt  
in /pandaroot

so that is the situation.  
best regards.

Alicia.
