
Subject: Bugs in simulation

Hi all,

At working with new release, I have following problem.

I could compile new release of Panda-Root normally,
using information at Panda-Wiki.

For emc I could perform simulation well.

However, for example, for dch, (also for drc) I obtain error:

```
>>>>>>>>
```

```
Error: Can't call
```

```
TG4RunConfiguration::TG4RunConfiguration("geomRoot","LHEP+emStandard+optical",  
"specialCuts") in current scope /u/galoyan/pandaroot7/pandaroot/gconfig/g4Config.C:29:
```

```
Possible candidates are...

```

because if that is the case,
maybe you have to work with root version
libCore.so.5.17.

AliciaS.
