Hi,

I suppose this goes to Mohammed. When I checked out rev. 2104 I was not able to run the G4 simulation any more. When reverting these changes it worked again.

Here the error output:

Toggle Spoiler

```
===== CbmRunSim: Initialising simulation run =====

```

Nice greetings from Dresden,
Ralf.

Subject: Re: Problem with G4.9.1 compatibility fix

Hi Ralf,

Yes it is my mistake! in Geant4.9.1 they move some functions from the libdetector to libG4detutils, So it seems that the if-statement I put before this library does not work, so I have to look inside this again.

Any way I comment this line out for now, so it should work again with Geant4.9.0

Mohammad
