

Dear all,

there will be a PandaRoot EVO meeting

this Wednesday 13.02.2008, 14:00-16:00

Audio testing from 13:30.

Tentative Agenda:

follow up on all open questions

1.) global tracking

Riemann, geane, Hough, lhetrack,
primaries vs. secondaries
weird tracks etc.

2.) PandaEmcCluster summaries

(Zernicke moments etc.)

anyone tried?

3.) PID, any ongoing studies?

4.) geant3 vs. geant4/VMC vs. geant/native

5.) news from the grid

(and maybe news from the grid workshop?)

6.) new platform: Mac OS

7.) svn

a.) development branches

b.) recent (technical) problems when checking in

8.) GSI annual report (already submitted)

-> institute list

9.) material for Sebastian's DPG talk

10.) any unresolved bugs?

11.) a.o.b.

If you like to present anything, please just let us know.

cheers, - Soeren & Johan
